What is the secret to startup accounting?

Josh Alexander
Alexander & Williams

1. Earn the skillset

I spent 10 years at my first firm, which really allowed me to gain and obtain the skillset needed to be confident running my own firm.

2. Build the development mindset

I became pretty good at originating business, which allowed me to develop my entrepreneurial mindset.

3. Connect with mentors

I sought out people who had been there to get their advice and wisdom, which gave myself and my partner the confidence to take that leap.

What is something that surprises people, knowing you're an accountant?

Josh Alexander
Alexander & Williams

I really enjoy cooking. I am a terrible cook – it probably takes me twice as long as an average person – but, I love cooking because I really enjoy eating.
