What is the secret to startup accounting?

Tom Wu
SuperRare Labs

1. Don't "stay in your lane"

Fix inefficiencies where and when you see them – move fast.

2. Always have a contingency plan

Nothing is guaranteed so have a conservative approach ready if needed.

3. Manage your time

Set this from the top - encourage the team be efficient and work asynchronously when possible.

What is something that surprises people, knowing you're an accountant?

Tom Wu
SuperRare Labs

I've competed in almost every single type of race you can think of... I just ran up the Empire State Building.
